Established in 1938, **Canadian Power & Sail Squadrons (CPS)** is a nationwide organization of recreational boating enthusiasts. CPS is a charitable organization with over 30,000 active members. Our volunteer instructors help recreational boaters improve their boating safety knowledge as well as their vessel handling and navigation skills. Successfully complete the Boating Course or Boat Pro and receive a one year complementary membership to CPS with access to member benefits.

Volunteers Teaching Safe Boating

Extended Cruising

To roam upon the seas has long been a dream of many adventurous sailors. In today's fast paced life, the sea remains one of the few places where one can explore our planet while making a personal journey as well.

To make port successfully after a long sea voyage using your own boat and skills is a great accomplishment.

Offshore sailors must be able to fill all the roles of helmsperson, navigator, plumber, meteorologist, shipwright, radio operator, cook, doctor, sailmaker, mechanic and diplomat.

A combination of knowledge and experience coupled with the essential traits of patience and planning will lead towards rewarding voyages.

The *Extended Cruising* course helps establish the skills required for you to seek distant shores.

Topics

- » The Boat
- » The Sails
- » The Well-found Vessel
- » Passage Planning
- » Passage Making
- » Oceanography and Weather
- » Weather
- » Instrumentation
- » Adverse Conditions
